

# BEWARE 3+1 CCTV Cable – 90 Meter

Model: BW-3SC1-90M

## Product Overview

The BEWARE 3+1 Standard CCTV Cable – 90 Meter is designed for stable video and power transmission in CCTV installations. With its integrated 3+1 cable structure, it combines video and power lines into a single cable, simplifying installation and reducing wiring complexity. Ideal for homes, offices, shops, and commercial surveillance systems, it ensures reliable signal quality and smooth camera performance.

**Video + Power  
in One Cable**

**Ideal for Medium to  
Long-Distance  
Installations**

**Suitable for 12V  
CCTV Cameras**

**Clear & Consistent  
Transmission**

**Easy Routing Through  
Walls & Conduits**

**Residential &  
Commercial Use**

## KEY FEATURES

- **3+1 Integrated Cable Design** – Combines video and power in one cable
- **90 Meter Length** – Ideal for medium to long-distance installations
- **Stable Video Transmission** – Clear and consistent analog HD signal
- **Flexible & Easy Installation** – Smooth routing through walls and conduits
- **Wide Compatibility** – Supports AHD, TVI, CVI, CVBS cameras
