

BEWARE 16CH SMPS – Single Output

Model: BW-16SMPS

Product Overview

The BEWARE 16CH SMPS Single Output is a high-capacity 12V DC power supply unit designed for CCTV surveillance systems. It provides stable voltage output and efficient power distribution for up to 16 cameras, ensuring reliable and continuous monitoring. Equipped with overload, over-voltage, and short circuit protection, this SMPS unit safeguards connected devices and supports large surveillance installations in homes, offices, warehouses, and commercial facilities
