

BEWARE 4CH SMPS – Single Output

Model: BW-16SMPS

Product Overview

The BEWARE 4CH SMPS Single Output is a compact 12V DC CCTV power supply unit designed for small surveillance installations. It delivers stable voltage output for up to 4 cameras, ensuring smooth and reliable operation. With overload and short circuit protection, this SMPS unit helps protect connected devices while maintaining consistent power supply for home and office security systems.

**Power Up to 4
CCTV Cameras**

**Consistent &
Reliable Power**

**Overload & Short
Circuit Safety**

**Durable & Easy
Installation**

**Ideal for Small
Surveillance Systems**

**Single Source
Power Distribution**

KEY FEATURES

- **4 Channel Power Distribution** – Supports up to 4 CCTV cameras
- **Stable 12V DC Output** – Ensures smooth and consistent performance
- **Overload & Short Circuit Protection** – Protects connected devices
- **Durable Metal Body** – Strong, heat-resistant construction
- **Ideal for Small Installations** – Perfect for home & office use

TECHNICAL SPECIFICATIONS

ELECTRICAL SPECIFICATIONS	
Input Voltage:	AC 100-240V
Frequency:	50/60Hz
Output Voltage:	Single Output (Common Distribution)
Channels:	4 Channel
Current Rating:	5A-10A
PROTECTION FEATURES	
Short Circuit Protection:	Supported
Overload Protection:	Supported
Over Voltage Protection:	Supported
INSTALLATION	
Mounting Type:	Wall Mount / Surface Mount
Connection Type:	Screw Terminal Output
Usage:	Indoor Installations
COMPATIBILITY	
12V CCTV Cameras :	Supported
Analog & HD Cameras (AHD / TVI / CVI / CVBS):	Supported
DVR-Based Surveillance Systems:	Supported
PHYSICAL DETAILS	
Dimensions:	7.5 × 4.2 × 13.1 cm
Weight:	Approx. 310 g
Material:	Metal Enclosure
Color:	Silver / Industrial Finish
